MEGA SEKURAK HACKING PARTY

26TH–27TH OF OCTOBER 2026

FOR

Daria Zięba

AGENDA DAY 1

MAIN TRACK (DAY 1)

Kamil Szczurowski, Robert „Proxy" Kruczek: How to hack another half of Poland on the second evening
Dawid Golak: Red Team OPS – The Art of Weaponization
Adam Haertle: How to survive an IT audit and not go crazy – a guide for administrators (and more)
Oxford-style debate: National Cybersecurity System (KSC) amendment: real protection or primarily structures and procedures?

LINUX SEC TRACK (DAY 1)

Karol Szafrański: A year of malware on Linux desktop and server
Leszek Miś: Multi-layered preventive strategy in the Linux environment in the era of AI
Lech Lachowicz: What if the kernel lies? Hunting rootkits
Lech Lachowicz: Fresh Linux, dirty Internet – hardening from scratch
Maciej Szymczak: RCE from an invoice – how to isolate document converters in financial integration?

CYBERARENA TRACK (DAY 1)

Beata Ogrodnik-Kołodziejczyk, Katarzyna Pieniak: (Un)safe corporate secrets
Alicja Marzec, Agnieszka Konieczny: Everything was according to plan. Why organisations lose control over incidents despite procedures, standards, and compliance?
Magdalena Rząca, Ewelina Żak: From prompt to incident – anatomy of Shadow AI
Ewa Piotrowicz, Emilia Franko: Cybersecurity through QA eyes, or how to become a security ambassador without changing job title
Karolina Ceran, Oliwia Jaskólska: DORA or human: who decides on cyber resilience?

NETSEC TRACK (DAY 1)

Piotr Wojciechowski: Blind spots. What a network engineer doesn't see, what a security engineer doesn't see
Piotr Wojciechowski: When a drone loses GPS and you lose Kerberos
Łukasz Bromirski: Tar, black holes, and trash – how to utilise Internet noise (for fun and profit)
Michał Łopacki: Domain Fronting – below SOC radar
Wiktor Sędkowski: Dead Air: Anatomy of a vulnerability
Robert Strzoda: Purple Teaming in critical infrastructure
